Technical Skills

Languages : Javascript, HTML, Core Java

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Material UI

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Postman, JWT, RESTful APIs, Axios, CORS

Work Experience

Infotact Solutions (Internship)

Dec 2024 – Mar 2025

Full Stack Developer

Remote

- Developed a full-stack **job portal** with role-based authentication (JWT) for employers and job seekers.
- Designed and implemented a **RESTful API** with Node.js, Express, and MongoDB.
- Created a dynamic **React.js frontend**, optimizing API calls using Axios for improved performance.
- Integrated real-time job application tracking with secure authentication (CORS, secure cookies).
- **Deployed** the backend on Render and frontend on Vercel for scalability.

Personal Project

Admin Dashboard Project

- Designed and developed a responsive admin dashboard using React.js, Material UI, and Tailwind CSS.
- Implemented dynamic UI components, including tables, charts, and cards for data visualization.
- Ensured a clean and modern UI/UX with interactive elements and responsive design.
- Optimized performance and styling using Tailwind CSS for utility-first design.

E-Commerce Project

- Designed a feature-rich e-commerce platform using React.js and Tailwind CSS, showcasing proficiency in modern front-end technologies.
- Utilized React's component-based architecture to create modular and reusable UI components, resulting in a scalable and maintainable codebase.
- Integrated external APIs for essential e-commerce functionalities.

Certifications

Web Development

Jun 2024 – Sep 2024

Udemy ([ude.my/UC-bed6bcd9-0f1b-48d6-b73c-4442586a86b2](https://www.udemy.com/course/web-development-90-days-challenge/))

Education

Scope College Of Engineering

Jul 2021 – Sep 2023

Master of Computer Applications

Bhopal

Mrs. KMPM Vocational College

Aug 2016 – Sep 2019

Bachelor of Computer Applications

Jamshedpur
